What We're Loving: Darling + Durable Easter Egg Pet Toys

04/08/2011

Could these pet toys be any cuter?

Colorful, durable and naturally attractive to dogs and cats, thanks to the special woolly scent derived from the natural oils of wool fleece, these darling 100% boiled wool dog toys are made without poly-fill or squeakers so you can be sure they're safe and will be completely biodegradable after your pet is done with them. Which, based on extensive field-testing, will take a very long time!

Machine washable and great for large dogs, small dogs or even cats - each toy is eco-friendly and handmade by Napali artisans.

Find them for around \$8.50 at Muttropolis.com
